

The mother
tongue
translation
team of the
"K"
language

8 July 2010

"We don't want to forget what life was like before we had the Word ... We were like dead men walking. We didn't know God or His Son. We lived in guilt and fear and constant warfare, always under the power of the evil spirits who terrified us and caused us to fear one another as well." You have helped make it possible for the "K" language group and many other groups to be alive in Christ. Thank you for your partnership with us through your prayers. If you want to read the rest of the story go to our website at <http://www.wysite.org/sites/garretson/Homepage>

Dennis continues to upgrade, revise, and research aviation maintenance training materials and set up training courses for furloughing members. The goal is to provide the highest quality aviators so that language groups can have access to life and glorify our Father. He is preparing materials for the JAARS team at the Experimental Aircraft Association AirVenture in Oshkosh.

I am working on upgrading materials for a child safety course and also have been given the responsibility to do additional staff training in area of child safety. I need real wisdom.

Thank you for helping to bring life,
Dennis and Patti
