

July 15, 2011

Dear Friends,

What do eggs, disciples and donuts have in common with the Garretson's? Hint... what number comes to mind when you think of each of these? You're correct, twelve! This year will be the twelfth trip to the annual EAA

JAARS 2010 Oshkosh Team

AirVenture in Oshkosh, WI for Dennis as a member of the JAARS Missions At The Airport team, with Patti only missing two of those trips. For over thirty years JAARS has set up a missionary aviation display at this, the largest annual aviation gathering in the USA. The EAA AirVenture is considered the World's Greatest Aviation Celebration having grown to include 10,000 airplanes and over 500,000 aviation enthusiasts each year.

Hundreds of Christians will visit our display during the week-long event to connect with us

in the Bible translation task by signing up to pray, give or begin the process of joining as members. We have also been amazed over the years with the opportunities the LORD provides in a venue such as this to share the difference He can make in lives by accepting Jesus as their Savior.

We would be very grateful for your prayers for us during this event. We will travel two days to get there leaving Friday, July 22nd, then make a ten minute presentation twice in a large church on Sunday before the AirVenture event begins on Monday, July 25th. After another two days on the road we will be back home late on Tuesday, August 2nd.

Patti and I both continue to covet your prayers and remain in awe at the faithfulness you exhibit in our ministry together as a team working to bring God's message of love and salvation to the millions of people still waiting to hear in their own heart language. We cannot thank you enough for working alongside of us in the calling He has placed upon our lives.

Our financial support is still much lower than what is needed. If you know of someone who would be willing to be an advocate on our behalf please ask them to contact us for details of what that would entail.

Serving Together,

Dennis and Patti
